

A Day to Remember and The Spymaster: A collection of books for English Language Learners (A Hippo Graded Reader)

A Day to Remember The events of a single day can change the course of history, for better or worse. These are the days that should never be forgotten. In this book, you will read stories that recount historic events from the perspective of those who were there, like the bandleader who played on as the Titanic sank; and Howard Carter, the man who discovered the tomb of the Boy King, Tutankhamun. Experience the horror and heroism of D-Day through the eyes of a young soldier; and relive the assassination of President John F Kennedy on that fateful day in Dallas in 1963. Read about the division of Berlin and the joyous reunions that occurred when the Wall came down in 1989; and experience the devastation of Hurricane Katrina and its aftermath.

The Spymaster We have always been fascinated by spies people who live secret and dangerous lives in the shadows. In this book, you will read about how spying has developed over the centuries from simple codes and double agents, to hi-tech modern spies using technology to steal and sell information. If you are interested in how Queen Elizabeths spymaster found out that there was a plan to kill her and take over the country; or how Mata Hari, a glamorous and beautiful spy, used her charm and intelligence to steal secrets in World War One; or how Edward Snowden managed to obtain documents that the British and American governments really didnt want anyone to know about then this book is for you. A Day to Remember and The Spymaster are published by Hippo Books, a publisher dedicated to producing interesting, readable and fun books. This book is suitable for English students with intermediate English or higher. Be sure to check out our other Hippo Graded Readers.
