

The Nonprofit Boards Role in Mission, Planning, and Evaluation, 2nd Edition (Governance Series, No. 5)

All too often, nonprofit boards look at mission, planning, and evaluation in isolation. This book, however, offers an integrated approach. A regular and consistent planning process helps the board and staff clarify mission and make changes when necessary to keep mission fresh, lively, and relevant. A systematic evaluation process generates information to help formulate goals and provide the framework for measuring those goals against mission.
