

Excerpt from The Music of Spain The idea of the author of this book is perhaps better expressed in the title of its first chapter, Spain and Music, than by The Music of Spain, for the author does not deal solely with the subject in relation to historical periods, schools, or style, as is often the case with books of this kind. The present work appears to embrace everything related to music, provided it affects or is affected by Spain in some degree, no matter how small or insignificant. The period extends from the XVI. Century to the present day, or, in order to make the reader realize at once the true character of his work, I should say that the author encircles his subject in a huge ring or parenthesis that opens with Antonio Cabezon, the Spanish bach (according to Pedrell) and closes with the gypsy dancer and singer, Pastora Imperio, queen of the Spanish varieties stage of to-day. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
