

In order to account for the multiplicity of the development problem the interaction of health and development has been discussed at an international interdisciplinary symposium. Scholars from both humanities and sciences from the United States, Africa and Europe examined jointly economic and health problems not leaving apart cultural anthropological aspects.

New Concept of Higher Vocational College of Art design Textile and fashion design teaching materials, textbooks recommended by the Chinese Academy of performance apparel design [paperback], Drugs for Bugs: The Saint-Frances Guide to Outpatient Antimicrobial Therapy, !!UNO, DOS, Tres...Ya!: CD Audio Para LA Clase 2 (Mixed media product)(Spanish) - Common, English Composition and Rhetoric - Primary Source Edition, 1922 Ausblick auf eine Architektur (Bauwelt Fundamente) (German Edition), Exercise: The Facts, The Comparative Physiology of Internal Secretion.
