

## Heart Breathings

Heart Breathings is a fitting title for a book where words are only the vessel that somehow endeavors to hold, and show forth, the breathings of the spirit that is not flesh. There is a frustration when yearnings beyond words find themselves clothed in the only medium that can cause them to be tangible to others. These poems are the roarings and sighings and longings of the inarticulate soul trying to create a substance through which to transmit its feelings to others. Paul Ravenhill.
