Together you and your angels can create a life of happiness and fulfillment, and build a wonderful world. Excerpts: Your angels want to help you. Angels can do all sorts of things to lift your stress and make your life more joyful. Even though angels are immaterial beings, they are excellent at finding ways to fulfill material needs. As beings of light and spirit, angels are the perfect go-between to oversee the

interaction between the material world and the spiritual world. Angels are experts at working behind the scenes, pulling invisible strings, drawing needed resources to you, making connections happen, and plopping divine signs and messages right in your face. You can develop your natural ability to hear, see, feel, and know the invisible realm of spirit. Your psychic sensory ability can be strengthened by raising your vibrational level to the higher vibration of spirit. Simply by interacting with your angels, your sensitivity to their spiritual vibrations will become heightened and refined. Your angels are continual communicating with you in subtle ways. They are always offering you guidance through gut feelings, intuitive hunches, images that play through your imagination, or through your daydreams or nighttime dreams. Your angels can help you change your life. When asking your angels for guidance, they might direct you to take an action. Trust in the directives that they give you and follow their guidance. This is how you and your angels work together to manifest your dreams and desires. You'll find that when you act on their guidance, you will open the path to greater possibilities.
