

## Two People in a Room. Paternity, Chastity and Sex: A New Conception of Jan van Eycks Arnolfini Portrait

An investigation into the meaning of the Arnolfini Portrait by Jan van Eyck. A complex and iconic work of art the Arnolfini Portrait has had many different interpretations. Here, in the dissertation I completed for my MA in 2013, I explore these interpretations and offer new and exciting alternative theories; including a re-identification of the woman in the portrait and the discovery of a new figure in the mirror. My theories I hope will foster and aid further study into the work and promote a keener interest for the casual reader interested in the art of the Northern Renaissance and the culture of the period. Due to not currently having the required permissions for their publication it has been necessary for me to remove all reproductions of art works from the body of my text. For those familiar with van Eycks portrait, and the other works discussed here, I hope this doesnt prove too much of an inconvenience. For those less familiar, I am hopeful that the discussion itself will inspire a desire to discover the works of art discussed many of which can easily be found on the web. Here then, out of necessity, my work is lacking a vital visual component, but I feel it is more important to share my ideas at this time, rather than mothball them. I hope the lack of images isnt too unbearable and that my theories do their bit to make the read worthwhile. A fully illustrated version will hopefully be available soon.
