

When Peace Rains

Now you and a child may join together on a magical and courageous journey through judgment and fear into a place of acceptance and peace. The story takes place in Will's home and backyard. It is based upon an experience that may be familiar to both young as well as older readers. Though a fairly simple story it carries a profound message: the importance of not allowing fear to stop us from enjoying life and having fun. Join Will and Sara as they learn that they have the ability, within themselves, to conquer and transform their fears into fun. Beautiful illustrations enhance your enjoyment of the story as it unfolds. This book is written so that a child may engage in this journey on their own or accompanied by an adult. Don't miss out on this precious opportunity to help guide a child in ways to recognize and transform their fears into more productive feelings and actions. Fun and interactive exercises follow the end of the story. You may use these exercises with a child to together develop a state of inner peace. Choose to embrace peace, say goodbye to fear and fill your own as well as children's lives with rainbows and peace through reading this thoroughly enjoyable book and joining us on this magical journey.
